INTRODUCTION

The nucleus of the Organization began on February 3, 1976 and successfully completed projects totaling an excess of \$75,000,000.00 through January 11, 1988. On February 16, 1988 Spectrum Contracting Services, Inc. (Spectrum) was incorporated utilizing the significant employees from the previous Organization. Since inception the Organizations under the ownership and direction of Donnie E. Tucker has completed 857 projects totaling \$654,536,843.25¹.

Spectrum is extremely proud to have established its reputation of quality workmanship, timely completion, and cost-effectiveness. Spectrum continues to provide the superior, full range contracting services our clients have known and continue to expect. Please review the information contained in this data book to understand why we claim to be "the complete contracting firm".

¹ Figure is in 2016 dollars.

SPECTRUM CONTRACTING'S FACT SHEET

- I. EXPERIENCE: Our organization has successfully completed 912 projects totaling \$689,340,298.15.¹
- II. COMPLETE CONTRACTING SERVICES: Spectrum has the personnel and knowledge to offer complete contracting services from inception to completion of a project. Our services include Design Build, General Contracting, Construction Management and Commercial and Private Development.
- III. COST EFFICIENCY: Spectrum's competitive bid results show that our average competitors cost is 6% higher than our cost. The statistics also show that we are one of the three low bidders 79% of the time on competitively bid projects.
- IV. TIMELY COMPLETION: Spectrum has never paid liquidated damages for failing to complete a project on time.
- V. QUALITY STANDARDS: Spectrum enforces its strict quality standards with daily onsite supervision and periodic site inspections by our office personnel. Quality is very subjective to measure; however, our quality standards are among the best as is evidenced by our reference letters and the following facts regarding client satisfaction.
- VI. CLIENT SATISFACTION: The result of all the above facts is client satisfaction. Since 1988, approximately 75% of Spectrum's projects have been previously satisfied clients. Our satisfied client list is very diversified and even contains international clients. For example, we have completed a national Design Build account for Hot Springs Auto Wash (a German company). These complex facilities ranged from \$1.5 million to \$2 million in size. We also designed, built and managed a 21-townhouse complex and clubhouse for the Toyota Manufacturing Corporation. Additionally, we have under design and construction a chemotherapy plant owned and operated by an Indian company. As can be seen from our project list, we have serviced many national clients.

¹ Figure is in 2016 dollars.

Curriculum Vitae

Donnie E. Tucker

Summary of Qualifications

Mr. Tucker has a formal education and 47 years of experience in the construction industry. The construction experience is varied having been involved in earthwork, bridge building, sewer and storm piping, asphalt and concrete paving, commercial building construction, multi-family housing, and single family housing. The last 40 years he has been the President and CEO of a construction company owned by himself. Mr. Tucker has also worked as a consultant, completion contractor, and expert witness for owners, bonding companies, and attorneys on numerous projects wherein there were construction and design difficulties.

Certified Public Accountant in Pennsylvania

Computer Skills:

Proficient with Turbo Tax and H&R Block TPS and various accounting systems including Quickbooks, Sage Master Builder, Timberline, Solomon and Hyperion. Proficient with Microsoft Excel, Powerpoint, Word, Outlook, Access

DESIGN BUILD

Spectrum Contracting Services, Inc. believes the most efficient method of delivering a construction project is through the utilization of Design Build. In this section of our data book is a discussion of the contracting arrangements for the construction industry with their advantages and disadvantages. A review of that information indicates that Design Build delivery of construction projects is the fastest growing form of construction. It further projects the continued growth of this product delivery over the foreseeable future. The reasons are many but three of the most noteworthy are cost savings (usually 10% or more), time savings (usually 25 to 30 percent faster than traditional construction), and increased total quality of the project due to the partnering relationship between the Owner, Designer and Contractor.

With 41 years of construction experience as the President and CEO of a commercial contracting firm, I have come to understand that all highly successful projects involve a harmonious relationship between the Owner, Architect / Engineer, and the Contractor. Whenever these entities work together for the good of the project, the final product offers the highest quality in the least time at the most efficient cost for the benefit of the Owner. The Owner, the Architect and the Contractor enjoy the process due to the partnering concept wherein creative ideas, cost containment and good will are prevalent. This attitude and commitment to a successful project enhances the project and the joy of all parties for having been involved in the project.

To properly facilitate a successful design build project, the designer and the builder are required to have professionalism and extensive experience in the design build industry. All General Contractors are not appropriate for design build. The best General Contractors for design build are Contractors who have engineering professionals on staff as well as business professionals. This means the Contractor must have an educated group of employees who function as professionals. Furthermore, it is essential that the Contractor have experience in design build.

Spectrum has or is involved in 60 design build projects over the past five years. These projects have met budgets and delivered client satisfaction. Client satisfaction is demonstrated by our continued growth in the design build segment of the construction industry as the Contractor of choice. Our reputation is such that we have been chosen as the design builder for projects as far away as Tampa, Florida to the South and Nashville, Ohio (close to Cleveland, Ohio) to the North. In the past we have worked as far West as Topeka, Kansas on design build projects.

The geographic area that we serve does not indicate that we are a gigantic construction firm. We are not. We are a medium size construction firm by choice. We understand in the environment of today's construction market the difficulty of being extremely large.

We further understand the difficulty of constructing projects that are a primary concern to the Owner with only project management involvement as large companies typically organize. Thus, we have chosen a size company that allows us the financial strength and the good will to perform sizeable projects over a large geographic area for select customers. With our company's organizational structure, we have top management involved in the projects. It is our belief that top management is the most skilled management in a construction firm. Thus, our clients get the best management we have to offer.

Our involvement in design build projects over a substantial geographic area is an indication of our ability to satisfy clients. These satisfied clients pass our name along to other contacts, which in turn results in our involvement in the larger geographic area. Basically, we have a marketing concept of building in the Central Kentucky area for most reputable Owners and building anywhere for a preferred Owner.

COMPETITIVE BID RESULTS

Spectrum's cost effectiveness is documented by competitive bid statistics for the past 29 years. During this period, Spectrum's bid results, as well as our competitors, have been compiled and analyzed; and the results exhibit that our average competitor is 6% higher in cost than we are. These statistics also show that Spectrum is one of the three low bidders 79% of the time. On the following page is a list of some of these General Contractors with their average cost percentage compared to Spectrum on competitive projects for the past 29 years.

Your COMMERCIAL license, expiring 6/30/2018, has the following:

Building (C&R)

A minimum net worth of \$50,000 with a positive working capital is needed to maintain this license.

We show that you have the following qualifier(s):

Type	Qualifier	License #	Status
Ark. B&L	Donnie E Tucker	recip w/TN	Reciprocal

DO YOU WANT AN
INACTIVE LICENSE? ☒ YES

1. The company may not, under Arkansas law, bid, contract, or perform any construction projects that would require an Arkansas Contractors License.

2. Inactive status may be requested each year at time of renewal.

ANSWER THE FOLLOWING QUESTIONS, AND PROVIDE EXPLANATION WHERE APPLICABLE:

- Yes ☒ No ☐ Is all the information above correct? If not, write the correct information above as needed.
- Yes ☒ No ☐ Do you have any employees?
- Yes ☒ No ☐ Has there been a change in ownership since the last renewal? If yes, attach explanation
- Yes ☒ No ☐ Has there been a change in officers since the last renewal? If yes, attach current officers
- Yes ☒ No ☐ Has the above licensed entity, any qualifier, officer or owner of 10% been subject to any disciplinary action by a licensing agency in this or any other jurisdiction since the last application was signed? If yes, attach explanation
- Yes ☒ No ☐ Has the above licensed entity, any qualifier, officer or owner of 10% filed for bankruptcy since the last application was signed? If yes, attach explanation, copy of the matrix showing creditors and amounts owed and discharge paperwork, if applicable.
- Yes ☒ No ☐ Has the above licensed entity, any qualifier, officer or owner of 10% been convicted of a felony since the last application was signed? If yes, attach explanation.
- Yes ☒ No ☐ Have you become a registered sex offender since the last application was signed? If yes, provide a brief explanation.
- Yes ☒ No ☐ Are there any outstanding liens, judgments, or pending litigation against the above licensed entity, any qualifier, officer or owner of 10% since the last application was signed? If yes, attach explanation.
- Yes ☒ No ☐ Are you or your spouse on active duty in the United States Military and currently deployed outside the State of Arkansas?

The signatory of this questionnaire form guarantees the truth and accuracy of all statements and all answers submitted and further states that if this application is being submitted after the expiration date of the applicant's license, the applicant has not bid, contracted, or performed any work in Arkansas which would require a contractor's license since it expired and said applicant will not bid, contract, or perform any such work until the license has been renewed/reinstated and further states that any depository, vendor or other agency is hereby authorized to supply the Contractors Licensing Board or its official representative with any information necessary to verify these statements. I further understand that giving of false or forged evidence of any kind to the Board may result in disciplinary action, including but not limited to revocation of license. Any agency of the State of Arkansas is authorized to release to the Contractors Licensing Board, or its representatives, any information necessary to show proper compliance with the Arkansas Contractors Licensing Law (ACA 17-25-101 et seq.) including, but not limited to the performance of a criminal background check.

Re: Spectrum Contracting Services, Inc.

To whom it may concern:

I am pleased to provide information concerning our Bank's relationship with the above mentioned customer.

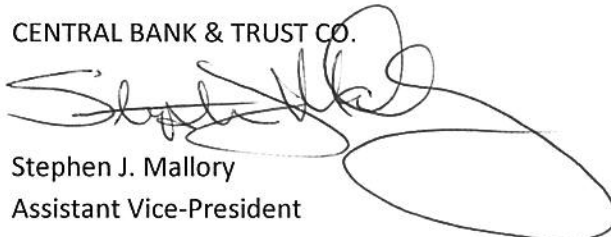

Spectrum Contracting Services, Inc. has been a customer of Central Bank & Trust Co. for over 28 years. The company maintains a depository relationship in the low seven (7) figure range and also has an unsecured line of credit in the amount of \$300,000.00, all of which is available at this time. This line of credit is reviewed annually in June. All accounts have been handled as, or better than agreed.

We consider Spectrum Contracting Services, Inc. to be a valued customer and great asset to our bank.

If additional information is required please contact me at 859-253-6210.

Sincerely,

CENTRAL BANK & TRUST CO.

Don,

I performed my site visit for this clinic Wednesday afternoon and wanted to let you know that it was one of the best sites I've been on. All of the plumbing was right where it needed to be and the framing was in great shape too. Very clean jobsite which made my job easy as well will make for a smooth installation of our millwork. Just wanted to give you guys a shout out for performing above standard.

Thank you.

December 17, 2008
To Whom It May Concern;

I have been in the ministry 60 years and experienced 7 building programs totaling 8 million dollars. Few things in life equal the excitement of a building program. A building arises, an answer to prayer and sacrifice. Finally, a dream becomes a reality.

On the other hand, a building program filled with delays for whatever reason can be a nightmare. In one of our building programs it was necessary to dismiss the Contractor after several months of work. I'm ashamed to tell you how much we lost.

Some companies have better salesman and displays than others. The Bible says, "By their fruit ye shall know them." In other words, "What did they accomplish in the past?" Anyone can produce a good resume.

If I were still in the active ministry and needed a contractor I would look no further than Spectrum Contracting Services, Inc. Remember three words: experience, reputation and integrity. Mr. Tucker and his company have gone the second mile with their customers and have earned the right to use those three words. May God bless you.

Respectfully,

Wayne B. Smith
Retired Minister of Southland Christian Church
Lexington, KY

Wellspring Christian Church
1001 Chapman's Crossing
Spring Hill, TN 37174

To Whom It May Concern,

Spectrum Contracting Service led by President Don Tucker constructed a worship center and preschool for WellSpring Christian Church in Spring Hill, Tennessee. We would like to extend our sincere recommendation for Spectrum in any construction projects you are considering. When additional construction needs arise for WellSpring, our desire is to again work with Spectrum.

We worked most closely with Don, Toni and Frankie throughout this project. From concept through design and construction the Spectrum team worked tirelessly to value engineer this project to meet and exceed the needs of our church and preschool while adhering to the budget that was agreed upon at the beginning of the project. The entire Spectrum team showed themselves to be true professionals with great integrity, honesty and sincere care for the WellSpring family throughout the process.

Don and Toni worked closely with the City of Spring Hill and the State Fire Marshall's Office to resolve unique challenges that arose throughout this project. They went above and beyond to keep the needs of the church met while also satisfying the requirements of the local municipality. They partnered with WellSpring using their vast knowledge and experience to help guide us through the process of zoning and city approval for our property.

I would like to express my confidence in Don Tucker and his team at Spectrum. I would recommend them for any construction projects you have. Please feel to contact me with any questions or if you would like to discuss our experience with Spectrum.

Sincerely,

CHAD J. BAWCUM
